Summary

Business Intelligence & Data Analyst with experience building internal dashboards, reporting workflows, and analytics systems for institutional decision-making. Currently working as a Data Consultant at Lakshmikumaran & Sridharan, focused on performance, revenue, matter/case, and leadership reporting. Previously led education analytics and program operations across schools, assessments, LMS workflows, PM SHRI initiatives, and large-scale student programs.

Skills

BI & Reporting: Power BI, Excel, Google Sheets, dashboard design, KPI tracking, management reporting

Data: Python, Pandas, Plotly, SQL, data cleaning, data validation, data structuring

Business Analytics: performance tracking, stakeholder reporting, decision workflows, documentation tracking

Education Analytics: assessment analytics, learning-gap analysis, Bloom's taxonomy, LOTS-HOTS, school program reporting

Experience

Lakshmikumaran & Sridharan (LKS), Data Consultant — Contract

Delhi WTC

Feb 2026 – present
4 months

- Building internal dashboards for matter/case performance, revenue tracking, lawyer-level performance indicators, and leadership review.
- Analyzing operational tables using Python, Pandas, Plotly, Excel, Google Sheets, and Power BI to create management-facing reporting views.
- Converting fragmented internal inputs into structured comparison, tracking, and performance-review workflows.
- Supporting data-backed increment and performance review discussions through clearer reporting logic and dashboard views.
- Contributing to governance and DPDPA-linked campaign/reporting workflows while keeping internal firm data confidential.

Edudigm, Program Head — School Programs

Kolkata, India

Dec 2023 – Jan 2026
2 years 2 months

- Led program delivery, reporting, and coordination across 5+ partner schools, covering 1,500+ students and 60+ teachers.
- Built and scaled Competitive Edge, a diagnostic assessment analytics framework using Bloom's taxonomy and LOTS-HOTS, across ~1,000 students and ~10 schools.
- Used assessment outputs to support learning-gap identification, remediation planning, and school-level academic reporting.
- Piloted a career assessment workflow for 500+ students from Classes 9-12 at KV Kharagpur, supporting structured student reporting and guidance conversations.
- Scaled Stellar Space Quiz, an ISRO merchandise-partnered National Space Day initiative, to 600+ schools across 6 states, with finals at Gyan Manch and IIT Kharagpur Research Park.
- Managed PM SHRI, LMS, STEM, robotics, and classroom-learning workflows across school stakeholders, documentation cycles, and program reporting.

Edudigm, Subject Matter Expert — Mathematics

- Delivered CBSE Boards and JEE-oriented Mathematics content for Classes 9-12.
- Designed chapter-wise assessments, revision modules, and practice sets aligned with board and competitive-exam requirements.
- Contributed to early curriculum and assessment systems later used in school-program delivery.

Durgapur, India
June 2022 – Nov 2023
